IMPORTANT NOTES FOR ALL BIDDERS

We would expect that the wise buyer will submit numerous bids, all at levels commensurate with his idea of the value of each lot. On items that he really wants badly, the serious bidder will bid well above the top estimate, recognizing that his bid will be reduced to 10% above the second highest bid, but also realizing that he may be in competition with other seriously interested bidders.

In those sections which show a price range for an estimate, the low figure represents a wholesale evaluation, while the high figure indicates what a serious specialist would gladly pay for the lot. Bids less than the lower of the two figures will most likely be unsuccessful; bids above the higher figure will most likely be successful and will most likely be reduced as outlined above (see also paragraph 2 of TERMS OF SALE).

In those sections where only one estimate is given, in some instances with a plus mark, these estimates represent what we believe to be a fair wholesale price and/or the reserve. In many cases these single estimates represent our own cost value. In nearly all cases, bids below these estimates will not be accepted. Generally speaking, our estimates should serve as useful guides, but all bidders should use their own knowledge and experience as the final tools to determine their bids.

We make the following suggestions to all bidders:

- (1) Bid what you wish on each item, but keep the estimate and reserve prices in mind lest you waste your opportunity to acquire an item you particularly desire.
- (2) Bid the maximum bid you would pay for the lot, recognizing that if your bid is high, relative to other bids, your bid will be reduced in accordance with paragraph 2 of TERMS OF SALE.

At the conclusion of the listing of all lots we have observed that many of our estimates in the paper money section as well as the gold section, may be considered low and are expected to realize prices at above our estimates. We make this observation based on the increased interest in paper money and the ever-increasing interest in gold. So also, all rare numismatic items are finally being recognized as such and are finding their ranks in value.

Requests for additional information, confirmation of the grade, date, mint mark, etc., of any particular items, or any similar individual questions are welcome and will be answered as promptly as possible.

An asterisk (*) before the lot number indicates that the actual lot offered for sale is photographed and can be found in the PLATE SECTION.

TERMS OF SALE

1. This is a mail bid sale. All mail bids must be received at our place of business not later than 6:00 p.m. Central Daylight Time, Nov. 30th, 1981. The highest mail bid for each lot will buy it. The highest mail bid on each lot may be reduced to just above the second highest mail bid (see item 2). On this basis it should be obvious that mail bidders should bid generously, if they are desirous of obtaining any particular lot or lots.

2. Terms of reduction: (a) No reduction will apply to bids of \$10.00 or less. (b) On bids of \$10.01 and up, the highest bid will be reduced to 10% over the second highest bid. For example, if your bid on Lot #100 is \$70.00 and the second highest bid is \$50.00, you will obtain the lot for \$55.00 (or \$50.00 + 10%). However, if your bid is \$70.00 and the second highest bid is \$65.00 then no reduction will apply as 10% over the second highest bid will be \$71.50. When reductions apply, amounts will be rounded off to the nearest half dollar.

3. An estimate is given for most lots. These estimates simply represent the owner's idea of the value of the item or our professional opinion as to what each lot is worth. THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER AT YOUR DISCRETION. To further clarify this, please read the "Notes to Bidders". We recommend that if you seriously want a lot, you should bid close to or over the estimate given herein.

4. All bids are to be made by LOT NUMBER as listed in this catalog. (Please make sure that your bids are legible.) Bids should be made only in United States Funds. In case of tie bids, preference will be given to the bid with the earliest postmark.

5. Lots will be sent on open account only to customers who have established credit with us. New accounts must furnish satisfactory credit references and/or include a 20% deposit. New accounts requesting shipment to a post office box or to general delivery must also furnish their home or business address. Bidders who have not established credit with us will be invoiced for their successful bids; lots will be sent upon receipt of payment.

6. All successful bids must be honored in U. S. funds immediately upon receipt of the lots or the invoice. This is absolutely necessary so that consignors can be reimbursed. Special arrangements for payment are possible if the amount involved warrants such treatment. If this is necessary, please request it BEFORE the auction, not after.

7. VISA/BANKAMERICARD or MASTERCARD may be used to pay for successful bids provided the purchaser agrees to pay the service charge billed to us by our bank on such transactions (3% on both VISA/BANKAMERICARD and MASTERCARD). Foreign bidders should make payment by International Bank or Postal Money Orders or Bank Drafts payable in the United States.

8. Postage and insurance or registration fees will be added to all invoices. Foreign bidders will be charged a percentage of the total value to partially cover insurance fees. And, our insurer will be responsible for any losses. Foreign bidders should advise us if special shipping instructions are necessary.

9. 5½% sales tax will be added to all lots mailed to Texas addresses, except dealers.

10. Auction sales ARE NOT approval sales. Upon submitting bids you agree to abide by the "Terms of Sale". Experts have described all lots; any errors made by them will be gladly corrected. Likewise, you are responsible for any errors you make. Returns can only be made with our written approval; request for such must be made within ten (10) days of dispatch of lots by us.

11. Title to all lots will remain with the cataloguer until payment in full is received. All items are guaranteed to be authentic (unless otherwise indicated) and to be as listed. Furthermore, the cataloguer reserves the right to accept or reject any or all bids at his discretion.

12. All lots in this auction will be available for inspection by appointment only from Nov. 25-27, 1981.

1. Este es un remate por correo. Todas las apuestas (o pujas) tendrán que ser recibidas en nuestro lugar de negocio no después de las 6:00 p.m. hora de San Antonio, Texas, del 30 de Noviembre de 1981. La apuesta más alta para cada lote es la que comprará dicho lote. La apuesta más alta podrá ser reducida hasta el punto de ser un poco más que la segunda apuesta más alta (ver artículo 2). Sobre estas bases, es obvio que los compradores deberán hacer apuestas generosas, si están deseosos de obtener cualquiera de los lotes en particular.

2. Términos de reducción: (a) No se aplicará ninguna reducción en apuestas de \$10.00 o menos. (b) Sobre las apuestas de \$10.01 en adelante, la más alta será reducida hasta el 10% sobre la segunda apuesta más alta. Por ejemplo, si su apuesta en el lote #100 es de \$70.00 y la segunda más alta es de \$50.00, usted obtendrá el lote por \$55.00 (o sea \$50.00 + 10%). Sin embargo, si su apuesta es de \$70.00 y la segunda más alta es de \$65.00, entonces ninguna reducción será aplicada, ya que si añadimos el 10% a la segunda apuesta más alta, el lote llegaría a costar \$71.50. Cuando las reducciones sean aplicables, la cantidad será redondeada al próximo medio dólar.

3. Se ha estimado un precio para la mayoría de los lotes. Estos precios estimados simplemente representan la idea que el dueño tiene sobre el valor del artículo, o nuestra opinión profesional de valor del lote. ACLARAMOS QUE SON SOLAMENTE PRECIOS ESTIMADOS Y QUE USTED PUEDE APOSTAR MAS ALTO O MAS BAJO SEGUN SU PROPIO CRITERIO. Para aclarar este punto, por favor lea los precedentes artículos. Recomendamos que si usted está seriamente interesado en un lote, lo mejor será que apueste cerca o más del precio estimado en este catálogo.

4. Todas las apuestas indicarán el número del lote como aparecen en este catálogo. (Por favor, cerciôrese que sus apuestas sean legibles.) Apuestas serán hechas sólo en dólares Estado Unidenses. En caso de empate en una apuesta, preferencia se le dará a la apuesta que es recibida primero.

5. Los lotes serán enviados a crédito solamente a clientes que tienen crédito establecido con nosotros. Nuevas cuentas tendrán que proveer referencias de crédito satisfactorias y preferible 20% de depósito. Cuentas nuevas que soliciten los envíos a Casillas Postales, deberán proveer también sus direcciones domiciliarias o de su negocio. A los compradores que no han establecido crédito con nosotros se les enviará la factura correspondiente por lotes que han ganado y se les enviará la mercadería al recibir el pago.

6. Todas las apuestas ganadoras tendrán que ser pagadas por medio de giro o cheque pagable en los Estados Unidos o en efectivo inmediatamente al recibir los lotes o factura. Acuerdos especiales para hacer pagos son posibles si la cantidad apostada merece tal trato. Si esto es necesario, por favor, pídale ANTES de que se cierre la subasta, no después.

7. Tarjetas de crédito VISA/BANKAMERICARD y MASTERCARD. se pueden usar para hacer pagos, pero el apostador tiene que pagar el servicio de cargo facturado a nosotros por esas compañías en tales transacciones (3% en VISA/BANKAMERICARD y también en MASTERCARD). Nuestros clientes fuera de los Estados Unidos además pueden pagar por girios internacionales de bancos que se pagan en los Estados Unidos u otra forma previa y mutuamente acordada antes de cerrar la subasta.

8. Cargos de seguro o certificación de los envíos se le agregarán a todas las facturas. Apostadores deben de indicarnos si existen instrucciones especiales de despacho. Apostadores fuera de los Estados Unidos pagarán un porcentaje del valor total para cubrir parcialmente los gastos de seguro y nuestra compañía de seguros será responsable por cualquier pérdida.

9. No es aplicable a nuestros clientes en el extranjero.

10. Las ventas en los remates no son ventas aprobadas por el cliente cuando él recibe la mercadería, sino que cuando el cliente somete su apuesta, él entra en un acuerdo para comprar la mercadería. Cuando el cliente apuesta, él indica que está de acuerdo con los términos de venta de este remate. Todos los lotes han sido descritos por expertos en la materia; si algún error ha sido cometido por ellos, nosotros estaremos complacidos en corregirlo. En igual forma, usted se hace responsable de cualquier error cometido por su

AUKTIONS-BEDINGUNGEN

1. Dies ist eine Versandauktion. Alle Gebote müssen uns bei Auktionschluss, 30. der November -18:00 Uhr Ortszeit erreicht haben. Das jeweilige Los wird dem am höchsten Bietenden zugeschlagen. Das Höchstgebot für ein Los kann auf einen niedrigeren Betrag herabgesetzt werden (siehe 2. Absatz). Es dürfte einleuchtend sein, daß auf diese Weise der Bietende ein großzügiges Gebot macht, wenn er den (die) gewünschten Posten bekommen möchte.

2. Bedingungen zum Preisnachlaß: (a) Kein Preisnachlaß erfolgt an Geboten von \$10.00 und darunter. (b) An Geboten \$10.01 & höher - das Höchstgebot wird auf 10% über dem 2. höchsten Gebot herabgesetzt; z.B. wenn Sie für Los #100 \$70.00 bieten und das 2. höchste Gebot \$50.00 beträgt, so werden Sie das Los für \$55.00 (oder \$50.00 + 10%) erhalten. Jedoch, wenn Sie \$70.00 bieten und das 2. höchste Gebot \$65.00 beträgt wird kein Nachlaß gewährt, da 10% über dem 2. Gebot \$71.50 ist. Wenn Nachlaß gewährt wird, wird der Betrag zum nächsten halben Dollar aufgerundet.

3. Ein Voranschlag ist für die meisten Posten gegeben. Diese Voranschläge bezeichnen einfach den vom Eigentümer eingeschätzten Wert, oder unsere berufsmäßige Ansicht über den Wert des jeweiligen Postens. Dies sind nur Vorschläge & Sie können höher oder niedriger bieten, ganz nach Ihrem Belieben. Um es besser zu (er)klären, lesen Sie bitte "Anmerkungen für Gebote". Wir empfehlen, wenn Sie den Posten wirklich möchten, sollten Sie dicht an den Voranschlag oder darüber bieten.

4. Alle Gebote sollen nach den Posten - nummern, wie im Katalog verzeichnet, gemacht werden. (Bitte vergewissern Sie sich, daß Ihre Gebote leserlich sind.) Gebote sollten nur in U.S. Währung gemacht werden. Im Falle eines gleichen Angebotes bestimmt der Poststempel.

5. Posten werden mit einer offenstehenden Rechnung an Kunden, die einen guten Kredit mit uns haben versandt. Neue Kunden müssen ausreichende Kreditempfehlungen haben oder und einschließlich 20% Anzahlung machen. Neue Kunden, die Versandt an eine Schließfachadresse wünschen müssen auch Ihre Heimat- oder Büroadresse angeben. Kunden, die noch keinen Kredit bei uns eingerichtet haben, bekommen eine Warenrechnung für Ihre erfolgreichen Gebote zugesandt. Die Posten werden nach Erhalt der Zahlung versandt.

6. Alle erfolgreichen Gebote müssen sofort nach Erhalt in U.S. Währung beglichen werden. Dies ist sehr wichtig, so daß Konsignatoren ausgezahlt werden können. Spezielle Vereinbarungen zur Zahlung sind möglich, wenn der Betrag eine solche Behandlung rechtfertigt. Wenn das notwendig ist, bitte ersuchen Sie darum VOR der Auktion, nicht danach.

7. VISA/BANKAMERICARD oder MASTERCARD können zur Zahlung verwendet werden, vorausgesetzt der Kunde ist einverstanden die Servicekosten, die uns unsere Bank bei einem solchen Geschäft verrechnet (3% bei VISA/BANKAMERICARD & MASTERCARD) zu tragen. Ausländische Kunden werden gebeten Ihre Zahlungen durch eine internationale bank, mit Zahlkarte oder Tratte zahlbar in New York zu begleichen.

8. Porto & Versicherung oder Anmeldegebühren werden bei allen Rechnungen dazugerechnet. Ausländischen Kunden wird ein Prozentsatz vom Gesamtwert verrechnet, um die Versicherungskosten teilweise zu decken und unsere Versicherung wird für etwaige Verluste haftbar sein. Ausländische Kunden sollten uns mitteilen, wenn spezielle Versandinstruktionen von Nöten sind.

9. 5½% Verkaufssteuer wird bei allen Verkäufen an Bewohner des Staates Texas verrechnet, ausgenommen Händler.

10. Auktionsverkäufe sind keine Bestätigungsverkäufe. Bei Einreichung von Geboten erklären Sie sich mit den Verkaufsbestimmungen einverstanden. Die Posten sind von Experten beschrieben, irgend welche Fehler, die Ihnen unterlaufen sind werden gerne berichtet. Gleichfalls ist man für die Fehler, die man macht verantwortlich. Rückgaben können nur mit unserer beschriebenen Bestätigung gemacht werden; Gesuche müssen innerhalb von zehn (10) Tagen nach Erhalt der Ware gemacht werden.

21 UNIQUE PATTERNS OF THE WORLD

We proudly bring to you this selection of unique pieces. Unique is sometimes used to describe an extremely rare coin. However, our offers are truly unique in the sense that to the best of our knowledge, these pieces have only been hereby recorded for the first time. The only one exception to this rule is lot number 021 which we thought we would go ahead and include due to its low mintage, high demand and catalog value.

There are other rare patterns offered throughout this auction catalog and we urge you to look elsewhere. However, we thought it will be fitting to underscore our twenty-one years with this sign of progressive numismatic leadership by ALMANZAR'S COINS OF THE WORLD.

HOW DO YOU PRICE THEM??? We agree with the consignor - it is very difficult to put evaluations on material of this type. So, we are merely describing the coin and will leave the bidding to you!!!

- 013 -GUATEMALA-CENTRAL AMERICAN FEDERATION C23 2 Reales 1831TF (8 grams) all of the normalities of the regular issue except about 50% thicker and therefore slightly circulated pattern issue - - -

- 014 -GUATEMALA Piedfort of 1 Peso gold 1860, Fr36 Y14 with double thickness. The dies for the Carrera's coins were prepared in France. This explains it as it was common for the French mint to issue this type of patterns. - - - - -

- 015 -Uniface pattern in white metal of 5 Pesos gold piece 1894. Only 10 gold pieces struck. It is said that only 10 pieces of each 5 and 10 pesos gold coins were struck in 1894 (see#16) and that the then president of Guatemala, General Jose Maria Reyna Barrios wanted to flatter a certain young lady and he had the coins designed with the intention of circulating them. However, two different effigy's and reverses are featured only for the 5 Pesos in this book -this is the second reverse). In any case, it is said that that the effigy's in the design did not correspond with the face of the lady and the president decided that the coins not be released for general circulation. Uncirculated - - - - -

- 016 -Pattern for gold 10 pesos 1894, as mentioned above, only one issue for this 10 Pesos of 1894 is featured in Siliezar's book and there is no mention of the existence of the 10 Peso of the second design. Hereby offered making it doubly unique as it does not exist in gold making this one the only example in any metal. The pattern hereby offered comes with extremely weak "4" in date which is sometimes intended so that it may be adopted for issuance at a later date - - - - -

The cataloguer also believes that this design may have also been adopted for silver patterns. Possibly 27 Centavos 1897 and 4 Reales 1895, both of which, if they exist, are extremely rare.

Taken from the Thomas W. Becker, Pageant of World Commemorative Coins. In the thirteenth century, Kuttenberg (Czech; Kutna Hora) was a sleepy little town in Czechoslovakia about forty-five miles south-east of Prague. When silver was discovered there the town began an unprecedented growth. After the Thirty Years' War (1618-48) Kuttenberg was forced to close the mines because they had flooded. In 1887 they were reopened with some little success. On the obverse is the laureated head of Franz Joseph I facing right with the lettering FRANC. IOS. I. D. G. AUSTRIAE IMPERATOR or "Franz Joseph I by the grace of God Emperor of Austria." The reverse contains the reproduction of Saint Barbara's Church in Vienna, begun in 1388 and completed 1585. St. Barbara was the Patroness of Makers and Users of Firearms and Fireworks. The commemorative inscription on the reverse reads ECCL. S. BARBARAE PATRONAE FODIN KUTTENBERGENSIAM MDCCCLXXXVII meaning "Church of St. Barbara, Patroness of The Kuttenberg Mines 1887." On the left of the church spires is the denomination DVI FLOR. for Two Florin and on the right is the lettering ARG. PURI. signifying pure silver. The incuse edge inscription PRIMITIAE FODIN KUTTENB. AB. AERARIO ITERUM SUSCREPTARUM reads "First Results Dug From The Kuttenberg Mines In A Renewed Undertaking!"

Although this is a relatively modern set, it should be considered of importance for a nation of relative little modern numismatic history, however it has a great historical past having been the island of the Hispaniola which Spain used as a base from which to conduct its exploration of the New World. These are not the proof nickel specimens of which 5,000 were made but rather presentation silver sets of which 15 were made. Also the bidder should especially consider the importance of the Half Peso coins. This set should obtain a bid of,	2,000-3,000.00
	(PLEASE SEE PHOTO OUT OF SEQUENCE ON THE LAST PLATE PAGE)

*722 -GUATEMALA-COUNTERSTAMP ISSUES-Unlisted 4 Reales with counterstamp which preceeded the provisional sun above range of mountains. This one has one single mountain and large quetzal bird above with sun at 8 o'clock. It is obvious that this counterstamp is struck over early date coinage and that it preceeded the later better known counterstamp authorized latter. In the case of 4 Reales, Krause lists several early 4 Reales cobs of Lima, Guatemala & Potosi counterstamped with the regular counterstamp. It is interesting however that the earlier Mexican type known with the regular counterstamps are dated 1756 onwards while this original coin is 1732. The cataloger only previous experience with this counterstamp was while inspecting a sizeable collection in a bank in Guatemala, and he examined two of these early counterstamps over a Potosi 8 reales cob. Therefore, it is possible that this one is a unique as a 4 Reales or at least the only surviving specimen of this early issues. Surely, also the collector should consider the full 1732 date which is visible in the original Mexican 4 Reales. Such pieces could only turn in up in a collection such as this one which took 50 years in the making. I would like to finally add that when finally all of our research is done and our 4 Reales and 1/2 Pesos of the New World book is released (see below for Pillars and Portraits Four Reales of The New World about to be released) then this piece will be recorded its price will probably escalate two-folds. In the meantime we estimate this specimen with the original coin Abt. Very Fine the counterstamp in at least Very Fine condition to be worth,2,000-4,000.00

We have typeset our four reales book and also photographed the illustrations needed. There is very little work ahead and soon we will be officially announcing Pillars and Portraits Four Reales of the New World by Darwin B. Palmer Jr. and Alcedo F. Almanzar. Said book is scheduled for released in December. We will not want to give the exact price of the book as we do not have enough information at present. However, the price in keeping with the present cost in printing will probably oscillate between \$15 and \$20.00. Anyone that wishes to order this book may do so now. The book is scheduled to be released in December.

*723 -8 Reales 1749J, counterstamp with 6 millimeters c/s. Single mountain with large quetzal above the sun at 8 o'clock. For more information on this counterstamp, see our previously offered 4 Reales coin in this catalog. However, the importance of this counterstamp does not need to be emphasized. Previously unrecorded, it is probably one of a few. The original coin in Fine weakness in the date and the counterstamp in VF it would be reasonable for the auctioneer to expect bids to exceed 5,000.00+

*724 -GUATEMALA-8 Reales Philip V 1729M heart-shaped. Truly a coin of the realm as it was for presentation to royalty that the idea of this type of coin first came into being. However, as if its state of preservation and its heart-shape was not enough, it has been uniquely counterstamped with the single mountain and large quetzal with sun at 8 o'clock. Measuring an exact 50mm at its widest point, this originally Potosi mint specimen is not only the first heart-shape to be recorded with a Guatemalan counterstamp but perhaps the only known. When it was first seen many years ago in the collection which is now hereby offered by the cataloguer, if then he could only preserve his memories as no money could be purchased at the time. As this coin is catalogued it also comes to mind as perhaps our second most memorable specimen ever owned. The unique Guatemalan specimen offered by us in our September 12, 1974 auction (lot#2598) in fact also a colonial coin of the later period of Charles III - a prooflike 8 escudos 1797 silver strike which we labeled then as a "spectacular discovery" and was repatriated to its original country of issuance selling for \$6,050.00. Still, we feel that whether it is for the most demanding sweetheart, a king, or a numismatist, they would more than likely prefer to own the present coin to the above mentioned specimen.

- The only known heart-shaped coin with a Guatemala counterstamp.
- An already unique coin with a unique unlisted counterstamp featuring the single mountain with large quetzal and sun at 8 o'clock.
- A high grade coin which qualifies as Uncirculated inasmuch as it still shows traces of luster.
- A piece which far surpasses in size and preservation the heart-shaped coin, Calbeto 1172 of Potosi (without counterstamp) as the only hole implanted in the present coin is on top for proper displaying.

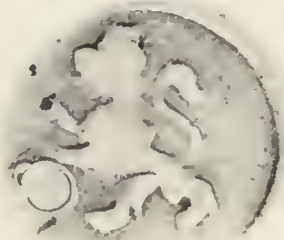

Surely with the ever increasing interest in the coinage of Hispanic America, especially those of Central America and considering recent advances in market values, the owner's estimate is reasonable at between, 15,000-30,000.00

Note that the counterstamp on this coin is crude and not as clear as the previously offered 4 and 8 Reales with the same particular counterstamps. Two theses are placed by the cataloguer either of which would be likely.

- The die for this counterstamp was shortlived and discarded because it soon broke. This justifies the few known specimens and was even possible re-engraved by the time it was used on this coin.*
- This second thesis is that this coin was in fact presented to some high government official. By then, the die had become corroded and damaged but the mint felt compelled to use it.*

*748 -Unique? or one of a few? 1/4 Real 1822 castle and lion. No longer myth but obviously exist and circulated this coin although listed by several publications as far as we know has not made its appearance in decades, in fact this coin alone with the 1822 8 Reales of Guatemala has been talked about in numismatic circles but has neither tun-up nor have been offered by way of auction. Elizondo in his book mentions the 8 Reales, however we have waited for the appearance of such a piece which he mentions as supposedly belonging to V.S.O. collection. However, Elizondo Sr. is now deceased and Elizondo Jr.'s address is unknown to us. So, for this reason we are unable to double check this listing. While discussing the 8 Reales coin, we have in fact observed only one coin which we feel to be altered from another date. I personally viewed the coin and was convinced of this. However, inasmuch as the 1/4 real has now turned up, the existence of the 8 Reales remains possible. Now a coin which will enhance any Central American collection or for that matter, is a coin which challenges the numismatic imagination is hereby offered.

HOW TO PLACE A VALUE??? When obtaining this collection we were of course faced with this challenge and we were taken back to our past history when we offered the Ecuador 1/4 Real 1842NV in Very Fine (fortrees and bird). Such a piece being Almost Uncirculated along with its counterpart the 1842NV in Very Fine, was then offered to us (price upon request-see the back cover of our May 15, 1968 catalog). Regretfully from 14 years ago the prices of that particular coin we challenge current catalogs as we believe that if those two coins were ever to offered again, they will be competitively bid and even possibly returned to their homeland at a price in excess of \$5,000. We should pay little attention to the fact that this is not a proof-like specimen, not an AU and not even and Extra Fine. Only a Very Fine holed specimen which testify's to first its issuance, second its circulation and third, a hole which should take little away from the coin as it is a testimony of scars which repeatedly typifies the rigors through which many of the Guatemalan Colonial coins were put through by the natives. Indicating that it was finally, after circulation, proudly worn and displayed by someone. Returning to the 1822 8 Reales coin of Guatemala which indicates evaluations ranging from \$1,250 to \$6,000 in Elizondo. We challenge anyone who owns one to come forth and we will gladly purchase it at several times catalog price (if it exists). We have not however allowed our imagination to get carried away. It could easily happen if pride of ownership had taken its toll. We have to admit that the coin does put a feather in our cap. We hope that bids received for this piece will exceed, 2,000.00+

*864 -GUATEMALA-8 REALES AND PESOS CONT.-Elizondo Unlisted Variety, 1 Peso 1893 but only assayer G. Our numismatic leadership prevails again as it appears that the only publicly offered specimens of this coin have been offered by our firm (3 times). Listed in our Auction of September 30, 1981 which just closed. First discovered by us (Mr. Almanzar on his trip to Guatemala in 1971) when coin was featured in our August 31, 1971 auction (lot#6,000). The September auction piece just went down at a price of \$3,000 in VF holed. This one is not in as nice a grade, however, it was spared from being holed. It shows solder spots in the rim at 12 o'clock and minor tooling in that area. A Guatemalan collector in a recent discussion with the cataloguer described this coin as a myth and was highly surprised when he was told that we have owned it twice and now another specimen from this life time effort collection turned-up. As you can see, the condition of the coin (dearly preserve by its owner even in this grade) is testimony of its rarity. Only good for wear, porous, but indisputably genuine. Previous recent sales records should help you in establish your bid, - - -

*910 -CC18757, FR25, Escudo, 1817M, RR one-year type, (Castan \$1925) In Spanish Catalogs, this coin is featured at price ranges axilating between \$2,000. and \$3,000.00. This does not compare in any way to the price range of \$150.-\$550.00 in Krause. The best example on the pricing of the Guatemala Gold Colonial Series in Krause are the 8 Escudos, in which recent Sales have brought ten to fifteen times their value in estimates. We are enlarging this particular coin to best indicate its grade which is unusual for Guatemala gold minor pieces. The die-break in the "D" of "D.G." in the obverse is possibly due to improper use of dies, this die broke and may have been disposed of, which must be the reason for the rarity of this one-year type. Minor flaws in obv. can also be seen in photo, XFine,. 2,000-3,000.00

922 -GUATEMALA CON'T Y75 Fr23 4 Escudos 1817, Ferdinand VII. Anyone vaguely interested in the Guatemalan colonial gold coinage is quite aware of this rarity and we feel that we need not go into specifics about this except that in order to give you a good indication, we have previously offered this coin only once. The specimen hereby offered is Extra Fine, professionally tooled (probably loop removed at 12 o'clock). Understandably, the owner expects bids to oscillate between. . . 3,000-4,000.00

922.1 -C85 Fr18 8 Escudos 1797M, Charles IV. SPECTACULAR COIN!!! One of a three year type and in re-searching through auctions, we found-out what we suspected, not a single specimen of this date has been offered except for our sale of September 12, 1973 in which we sold this coin struck in silver, then bringing \$6,050.00. With records including decades of auction catalogs and fixed-price lists available in our extensive numismatic library and not having found this coin listed neither in the mother land (Spain) Guatemala, nor in this country, we feel the collector may miss a lifetime opportunity unless he now competes for this "TRUE KING IN NUMISMATICS". A nice EFine specimen should bring. - - - -

ESTIMATE

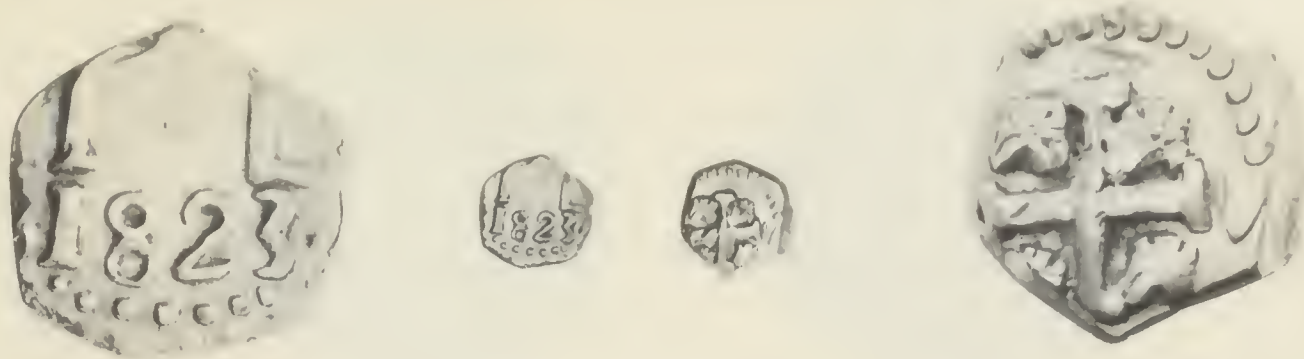

923 -GUATEMALA 20 Pesos Silver pattern, double-dated 1857, 1877; thickness 2mm; weight 11.5 gr.; size 33mm. There are two thesis as to the existance of this rare pattern, each of which explains its issuance.

1. The more visible date plainly illustrates that it was originally designed in 1857. However, there is a ghost date below it which is explained by the second thesis. First it is said that the coin was first designed in 1857 but that Carrera preferred his own bust to be featured on the coinage; this he did in 1859. Therefore, postponing the issuance of this design until finally it was officially struck in gold in 1877 and 1878.
2. The second thesis is that the coin was actually designed and struck in 1877 and to keep the silver patterns from being gold plated and circulated as regular 20 pesos coins, they decided to strike-over the original 1877 date and implant the crude 1857 date.

The cataloguer was only aware of two of these patterns. One which he inspected in a collection which he examined in a bank in Guatemala and this one particular piece which he had become acquainted with many years back. However, a third highly worn specimen has been reported in another collection amounting to a total of only three pieces. The cataloguer believes that rare patterns of South America have been greatly underestimated. Only the tip of the iceberg has been researched and published. He knows of catalogs now in preparation and when they are finally recorded, values which are dictated by demand will jump in leaps and bounds.

For the time being, this coin in Extra Fine for wear with sign of solder removed at 12 o'clock in the rim, and minor dings indicating that it was mounted in a brooch, is hereby estimated at. 5,000.00+

*931 -HONDURAS-PROVISIONAL GOVERNMENT-1/2 Real of 1823 Cl1. Obv. TL in monograph/1823, Rev: maltese cross with castle/lion, lion/castle and letter V. Surrounded in beaded circle. As in the case of the previously featured in this auction Guatemala colonial 1822 1/4 Real, here comes an unusual specimen. A coin which we have not seen previously featured. Recorded in the most thorough publication ever published on The Coinage and Paper Money of Honduras by Stickney and Almanzar. Recently released and previously recorded by Howland Wood in 1923 when he published his ANA monograph and six years later in Gutttag's collection of Latin American coins.

A piece which we have never previously seen offered for sale. Nor was there a specimen available for us to photograph even in one of the many collections which was listed on page 32 of our book THE COINAGE AND PAPER MONEY OF HONDURAS. The companion type Cl2 offered by NASCA, Wayte Raymond Sale, part I Lot #1988 brought in VF+ holed \$1,000. In April 28-29 1978 Lepczyk sold the Honduras Cl4, 2 Reales which is the commonest of the provisional series of 1823, holed Fine for \$2,000 of course since the average prices were established much water has passed under the bridge and the Latin American coins have register price increases in leaps and bounds which is partially reflected in the latest edition of Krause. We just received Paul Bosco's list (in New York) and the original specimen Krause plate coin Cl2 is now being offered in VFine holed at \$5,000.00. Not only should the above mentioned prices realized but also serve as a guidance in pricing the value of this coin but we feel that this first in our 21 years of numismatic history and possibly the only one ever offered by anyone through fixed-price lists or auctions. A shiny broad Abt. UNC example with visible full date (and showing previously unrecorded V in obverse) should exceed sale in the range of , 5,000-8,000.00

While listing this specimen I read with interest the mentions in Wayte Raymond sale Part I 1977, the price ranges with which minor Hispanic American coins are reaching and I agree and while repeating that the Venezuela Maracaibo revolutionary coin sells in the thousands, the Philippine Barillas 1700 also sells in the thousands and their Nicaragua Lot #3384 of the Wayte Raymond Part III sold for \$850.00. We will also like to add that secretly and through auctions and price lists, Mexican minor colonial pieces in the rare category are exceeding \$2-3,000. Such was the case of our last 1728A?? letter Philip V, 1 Real, etc. which was finally sold by us for \$2,000.00.

*1506 -MEXICO-GOLD ISSUES-KM148 8 Escudos 1733F, this numismatic example of the legendary richness attached to the Mexican numismatics brings us back to the specimen offered in our December 14, 1979 auction. That particular coin (lot #2539) sold for \$26,660.00. In order that the collector may appreciate the quality of this coin, we are photographically endeavoring to portray the King not only Philip III but also truly a coin which is in itself is a king in numismatics so that all of its beauty and quality is vividly apparent. The coin is uncirculated with a minor flaw in the strike which is apparent at 7 o'clock in the obverse. However, the rim design is not interrupted and is continuous in this minor flaw area making this hardly worthwhile mentioning. Surely for this Uncirculated coin, probably the only one that has come up in this grade in modern numismatic history, the consignor is justified to ask for bids to oscillate between, 35,000-50,000.00 (ANACS CERTIFICATE OF AUTHENTICITY AVAILABLE)

Some of the most significant offerings of Spanish American and Republic coinage have been as follows:

WORLDWIDE BUDGET AUCTION FOLLOWS . . .

Favorable letters have been received regarding our WORLDWIDE BUDGET SECTION (previously called WORLDWIDE DOLLAR STRETCHER AUCTION SALE in our September 30, 1981 auction catalog).

I think your special section entitled "Dollar Stretchers Auction Sale" is a fine idea worthy of continuation. - - J. T., Wauwatosa, Wisconsin

Dear Sirs: Since I will be moving on October 1-4, there is lessened likelihood that I will be bidding on this sale. Nevertheless, a development in your cataloging that makes me far more likely to be a future consignee merits comment:

First of all, let me say that I like your catalogues. The sheer depth allows for unparalleled opportunity. The educational and informational comments makes them permanent parts of the wise numismatist's library.

However, the new dollar-stretcher feature has several advantages. For marketing about 50% of the type of material I would have to offer, this feature is an efficient guide in uniting the proper buyers with listings. Also, whether one is after cheap or rare coins, when time is short, this is a helpful time-saver. Moreover, this savings in time does not rule out browsing in the rest of the catalogue to whatever extent the time-pressed person deems desirable. While not restricting your sales, it channels energy into the type of merchandise it is after, and thereby, and by eliminating the wheat from the chaff (or the chaff from the wheat), may actually increase your sales, as may be proven in time. It may help greatly to increase the readability of your catalogues, which certainly always have been worth reading cover-to-cover.

Congratulations on this new innovation. May you decide to keep it, I think, perhaps, with a less commercial name than "Dollar-Stretcher." And all best success to you as always. - - B. M., E. Millstone, N.J.

Thank you Mr. M. In answer to your letter, we have agreed with the innovation of the title and we have changed the name to BUDGET AUCTION until we find an even better title.

For the "Budget-minded" collector this section will consist of less expensive coins. In an effort to allow time for proper research of our usually extensive listings, we have featured this section to allow both advanced and "Budget-minded" collectors the opportunity to leisurely peruse our offerings.

With cost saving in mind, we have purposely been very brief in the description of our coins. We still give you Catalog Numbers, but occasionally we will abbreviate denominations and the verbal niceties.

This is the second time we have included this section in our Mail Bid auction catalogs. The first time being was September 30th and as we are going to the printers it appears as if this section is going to be successful. Please search for those elusive coins you need, remember a collection will not be completed unless it includes these coins either as types or dates.

GUARANTEE OF GENUINENESS AND REGISTRATION NUMBER NOW OFFERED BY ALMANZAR'S COINS OF THE WORLD

All items offered by our firm are guaranteed to be genuine (unless stated otherwise) and we will issue certificates of authenticity upon request. Final stamp of approval with his signature will personally be rendered by our firm's President, Al Almanzar.

Our certificate will fully guarantee the genuineness of the items sold, whether the item originates from our own stock or from one of our many consignees. Certificates will clearly cite the option of "Life Time Money Returned Guarantee" should there be any problems. Additionally all certificates will provide photographs (in the case of coins, showing obverse and reverse) that serve to identify the item. Item will be graphically and verbally described to include flaws, dings, certain characteristics, etc. not only will this be useful for the purpose of authenticity, but also to prove ownership in case of loss. Additionally, should there be requirement for close-up photographs of the coin, this will be done at an additional \$5.00 above the fees stated below.

Fees to be charged for photographs and handling are as follows:

A. Item less than	\$500.00	\$5.00
B. Item	\$500.01-1,000.00	\$20.00
B. Item exceeding	\$1,000.01 +	\$35.00

It should be obvious to all that no item will be offered by our firm unless we believe it to be genuine. However, we recognize that controversial items do exist in the field of numismatic as well as other areas of collectibles.

And, even though sometimes we feel that an item is genuine, existing certification services may not fully guarantee it or may not be able to render an opinion. In cases of this nature, we will obtain a buyer a time limit of (2) two years in which to decide to keep or return the item. No item may be returned because of market fluctuations or because of replacement at lesser cost.

Because of the above possibilities, in order for our firm to accept an item as a return, we will require a single authentication service, such as ANACS or INSAB to state that the item is not genuine. In the case of coins, we have knowledge of the same items having been sent to both authentication services only to have different opinions rendered as to genuineness on the same coin. We mention this because it should be known that the authentication services have changed their mind as to the genuineness of an item, and where humans pass judgement - humans can err.

Once a certificate is issued from Almanzar's, you can feel assured that we have done our homework and we stand behind it. However, if at anytime this coin is rendered spurious by one authentication service, we will pay expenses for another authentication service (including one of your choice in the United States or overseas) to render its opinion. A second negative opinion will get no arguments from us.

Regarding our firm's authenticating service, we provide the following information as it applies to Mr. Almanzar's numismatic qualifications:

- 1) Knowledge in British and British World Coinage (original area of endeavor when Al first became a collector)
- 2) Having handled considerable number of European coinage thru his own auctions and fixed-price lists, he has reasonable working experience in the field but when in doubt he will be assisted.
- 3) Often coins in the Oriental field present problems. Those that we doubt we do not offer. However, should there be any problems competent assistance will be sought.
- 4) Latin American coinage, the area where his expertise is best known and he has intensified his efforts in the past (15) fifteen years.
- 5) Numismatic Library-Collecting numismatic publications has been hobby of his, including close to 2,000 numismatic volumes, many of which are rare such as 18 volumes from the Jose Toribio Medina collection (famous Chilean historian and numismatist whose numismatic books are the most important collection ever published in Hispanic-America) all of which were printed in 100 to 200 volumes only.

Experts in all areas of coinage/collectibles are available to us, we have contacted a number of prominent collectors and dealers in several countries overseas, including 13 Latin American countries so far which are willing to assist should we have any doubt about a coin. We do not envision having to turn to our experts overseas on a regular basis, but we will be the first to admit that we do not have all the answers and when the need arises we will consult whomever necessary to satisfy our customers. We plainly like to state however that the final judgement of two authentication services, will be sufficient to refund your money and we would not want to enter into any arguments or delay in refunding your money.

A NUMBER OF ADVANTAGES WHICH YOU SHOULD CONSIDER IN OUR AUTHENTICATION SERVICE

- I. We feel that in Nineten percent of the cases, the certificate will be executed within 48 hours, and should there be any delays, and the coin turns out to be a counterfeit, you will be refunded your money plus bank interest during the time we keep the coin in our possession.
- II. Our certificate of authenticity gives you the advantage of guarantee from a long established and serious numismatic firm.
- III. The cost is considerably less than other authentication services and we believe that our expertise combined with that of other experts, in countries around the world, will match that of other certification services.
